Millwork & Fixturing...

Innovative concepts supported with skilled engineering, project management and nationwide service.

Complete “turnkey” Solutions...

Including coordination of all the components and technology.

General and food retail specialists project management, millwork, signage, installation and nationwide service

Integrating refrigeration with new concepts for front of store Including self scan and much more.

From custom projects to complete Renos and Rollouts.

- Annual sales over 25 million
- **Big and smaller contracts from \$1000 to \$1.5 million**
- Through teamwork and collaboration with our CRS Partners, we create and execute efficiently on complex and multi-faceted projects.
- We bring down costs through simplifying project management, consolidated shipping and logistics; we save time through more effective communications.
- **We are highly competitive**

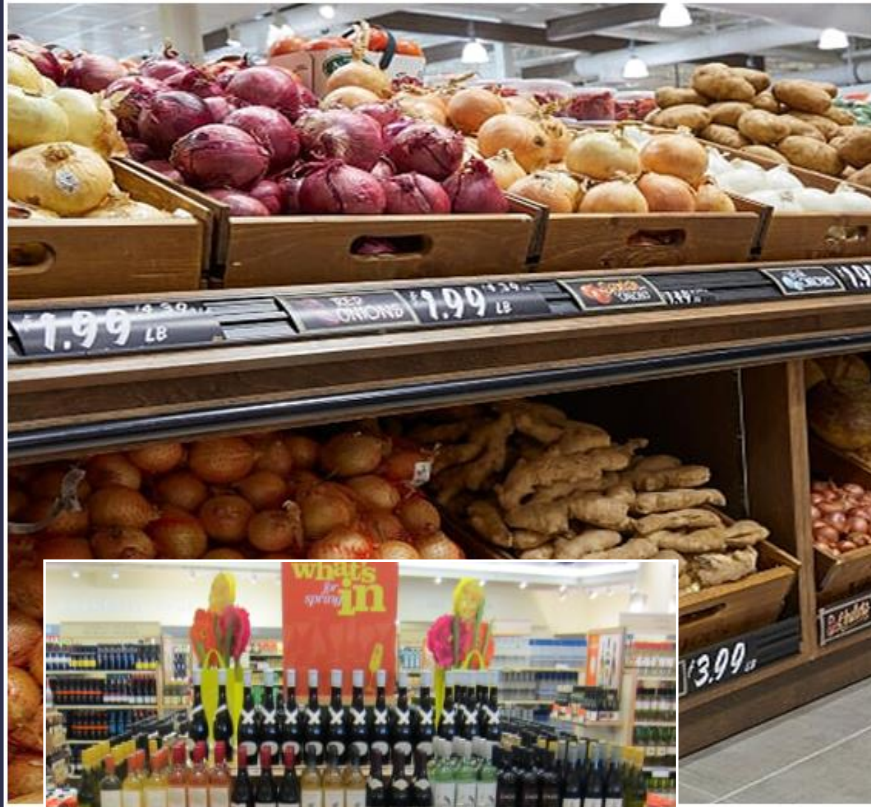

Our primary mill working partner gives us access to over 52,000 sq. ft. of production, 125 skilled people, and conveniently located south of Peterborough.

Equipment includes in-house veneer press (5' x 10'), CNC router, four finishing booths, four bed saws, straight and contour edge-banders, custom post-forming machine, solid lumber milling, 36" thickness planer, 16" jointer, single head shaper, 5 head sticker/moulder and 36" wide belt abrasive sander.

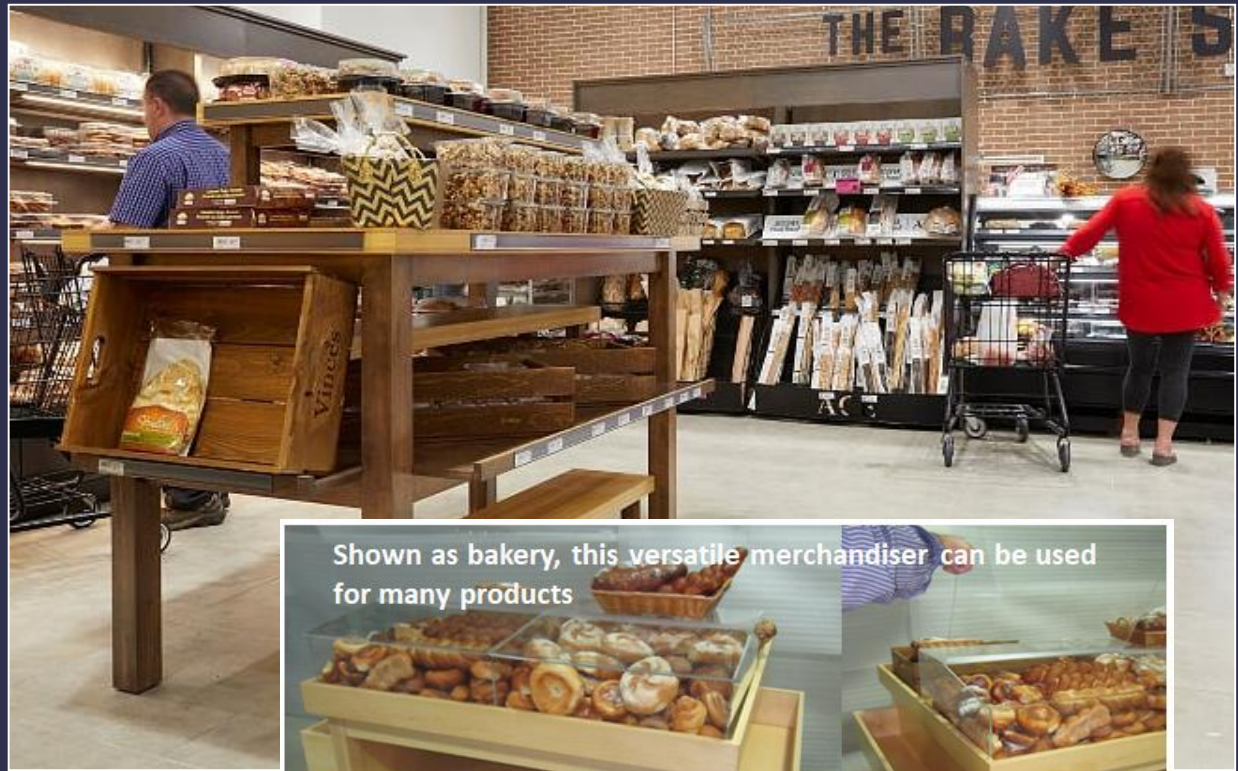

CRS Fixturing Group

The difference is often in the detailing...

We can coordinate everything.

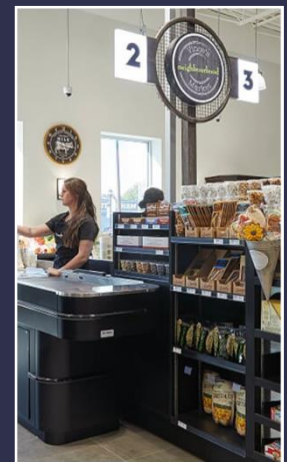

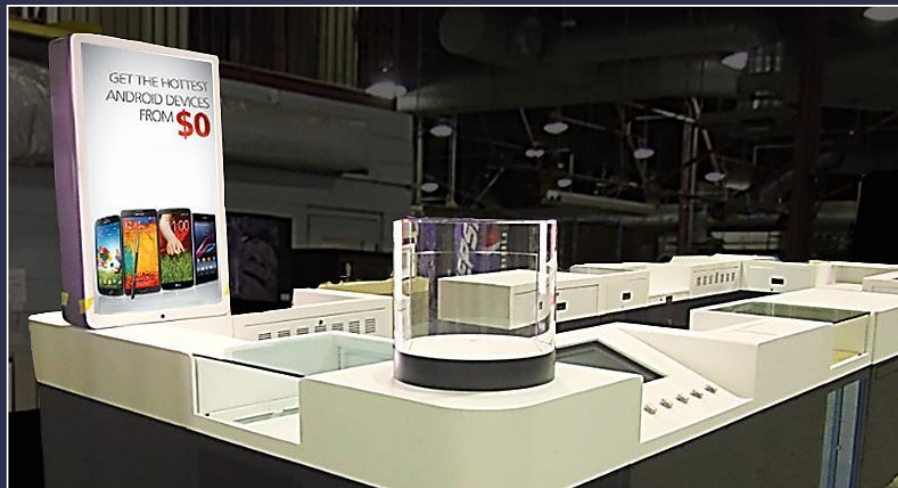

Adding features and making refinements that increase the effectiveness and increase sales power at the point of sale.
